# brand palette

# the goal

Vehicle Magnet Dieline

- Cut Line
- - - Safe Zone
- . - Bleed Area

Vehicle Magnet

**TOILET  
CLOGGED?**

**CALL NOW**

**215-398-6460**

font size choices are for easier readability while stuck in traffic / driving.

sizes are 9x12 inches (a bit smaller than usual vehicle magnets)

# what it would look like in real life

i took into account on what it possibly look like  
if it was now mounted unto the vehicle.

easier readability even  
from 10 feet away

proportions are not 100%  
correct in this mockup

**a much closer look**

**added magnet textures to simulate what the magnet would look like lighting was not adjusted so that visibility of the mockup is assured.**

**on a marketing perspective, a 9 inch vehicle magnet would help exposure BUT calling cards would be better**

**prioritized Call to Actions instead of branding due to constricted amount of space.**
