01 facebook page

POSTED QUANTITY

This week I have posted 18 contents on facebook, with each one being shared to group pages all over Philadelphia (prioritizing the page with 26k members)

1 carousel post containing 1 of our content pillar (Educational)

Startup Branding Identity was also created by me at the very first day

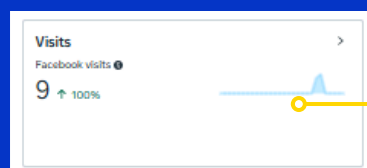

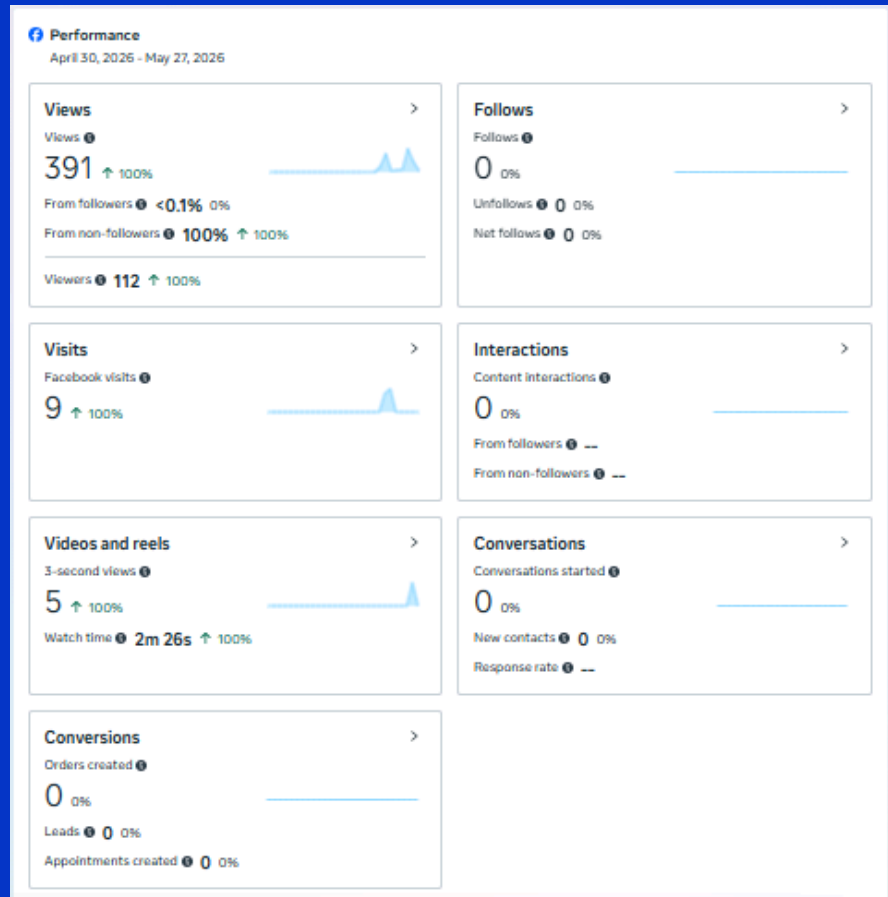

Branding Identity Guidelines are shared in [FastSnakingServices_Day1_Progress.pdf](#)

02 facebook metrics

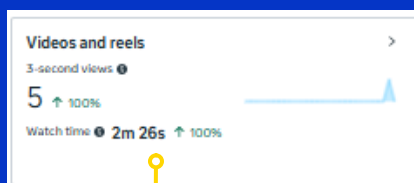

POSTED QUANTITY

Based on the Facebook performance metrics from May 21 to May 27, 2026, the page generated a total of 391 views, with 100% of the traffic coming from non-followers. This indicates that the content successfully reached audiences outside of the existing follower base, primarily through strategic posting within Facebook groups and community pages.

The analytics also show that 112 unique viewers were reached during this period, demonstrating that the content was able to attract new individuals and increase brand exposure beyond regular page visitors. This is a positive indicator that the current content distribution strategy is effective in generating awareness organically.

Additionally, the page recorded 9 Facebook visits, meaning several users were interested enough to directly check the page after seeing the posts. This suggests that the content and captions were capable of creating curiosity and encouraging users to learn more about the service or business.

For video-based content, the page achieved 5 video and reel views with a total watch time of 2 minutes and 26 seconds. Although still in the early stages, this reflects growing engagement with short-form content and shows potential for future audience growth through reels and video marketing.

I might focus more on posting short-form content rather than carousels or single image posts.

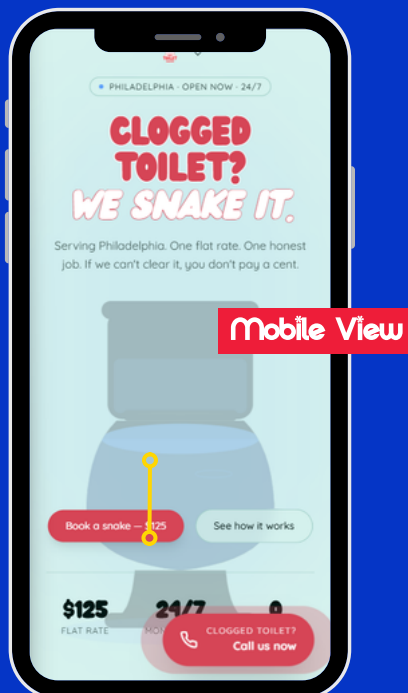

02 website design

POSTED QUANTITY

Fast Snaking Services was strategically designed to modernize the perception of residential toilet snaking and unclogging services. Unlike traditional plumbing companies that often rely on outdated branding and overly technical communication, the website was built to feel approachable, fast, modern, and easy to understand for everyday homeowners and renters.

The overall visual direction combines clean layouts, bold typography, mobile-friendly design, and social-media-ready branding to create a service identity that feels trustworthy while still being memorable.

Might start posting blogs posted in this website to gain website traffic.

Also will be setting up a Google Business Profile

VEHICLE MAGNET GUIDELINES

must be printed with the dimensions of 9x12 inches

Matte Texture so that glare doesn't distort the text.

Corners must be rounded

The vehicle magnet was placed on the right side of the vehicle to maximize visibility to pedestrians and curbside audiences. In Philadelphia, vehicles travel on the right side of the road, making the right side more visible to people on sidewalks and near businesses. This strategic placement helps increase brand exposure and advertising effectiveness. Studies have shown that vehicle advertising can **generate 30,000–70,000 daily impressions**, making it one of the most cost-effective forms of outdoor advertising.
